Quantity = _____

Total Cost excluding delivery = _____

20% deposit (must accompany order) = _____ ***Orders will be reserved and filled in the order in which deposits are received.

Buyer's Signature: _____, **Date:** _____

Mutual Agreement (must be signed and dated and received with order and deposit):

Triple N Oyster Farm LLC is accepting oyster seed orders for 2018.

- 1- A 20% deposit is required to reserve your order. The deposit will be returned if Triple N Oyster Farm fails to produce seed. If you fail to take delivery of the seed your deposit will be forfeited unless the seed can be sold to someone else. Orders will be reserved and filled in the order in which deposits are received.
- 2- We are currently anticipating that 600 micron to 3 mm seed will be available in April 2018. Larger seed will take more time to grow.
- 3- Seed production is limited to 20 million seed for spring of 2018. Orders received beyond 20 million seed will only be filled if seed production surpasses our predictions.
- 4- Pathology testing will be performed by VIMS for states that require certification. It is the responsibility of the receiving farm to ensure that ALL required documentation and protocols for importation of oysters is completed before receiving the oysters.
- 5- When seed reaches the ordered size they must be shipped or picked up within 3 days. If the seed grows to the next sieve size the price will be adjusted to reflect that size.
- 6- Seed will ship FedEx Priority Overnight and appropriate packaging materials will be paid for by receiving farm. The receiving farm should have a customer account number with FedEx (takes 5 minutes to set up!). Pickup at Grand Isle LA is preferred if at all possible.
- 7- Triple N Oyster Farm reserves the right to require payment in full before shipping.
- 8- Royalty fees for 4Cs Breeding Technologies INC are included in the prices listed above.
- 9- References available if requested.
- 10- Any multiple set oysters will not be included in the counts, but included in the weight. You only pay for the singles and therefore multiple set oysters (if any) will not contribute to the cost of your order.
